

THE WITELON STATE UNIVERSITY OF APPLIED SCIENCES IN LEGNICA

FACULTY OF TECHNICAL AND ECONOMIC SCIENCE

&

INVITATION

I-st International Conference

Cloud Computing and Virtualization -

Theory and Application in Teaching Processes CCV'2018

20-21 September 2018

University campus, Sejmowa 5, Legnica, Poland

Description and bounds of the conference

The conference is the first attempt of a science event concerning IT issues organized at the Witelon State University of Applied Sciences in Legnica, Poland. University staff representatives of business and education units, with PhD students are cordially invited to the conference. During the conference participants will be able to share their views and ideas, present the results of their researches, mainly but not only, in the appointed areas, especially in:

- cloud computing areas and techniques,
- virtual technology applications,
- implementation of educational problems,
- big data computing ,
- high school management conceptions and applications,
- software licence management,
- software designing problems concerning conference areas,
- mathematical models of the cloud computing.

Conference allows to present both theoretical and practical issues. So we invite not only university staff but also software designers with practical experience.
